# Introducing

iAPPROVEAPP™

relationships - defined & communicated ™

Designed expressly to aid Title IX compliance, iAPPROVE is an iOS and Android application that defines and communicates relationship decisions and progressive consent for sexual relations.

iAPPROVE is a serious APP that supports individual empowerment, Title IX compliance, investigations and legal procedures.

TITLE IX

For more information visit www.iapproveapp.com or contact us at info@iapproveapp.com

Title IX and related laws are tough.
At risk are lives, reputation and fairness. Today, the challenges of Title IX are amplified by social media.

Why not use everyday technology to support compliance and create a safer, more secure and user-empowered environment?

iAPPROVE is the first iOS and Android application truly designed as a highly interactive technology for defining, communicating and documenting personal relationship choices and decisions.

iAPPROVE incorporates HIPPA-like security features, extensive reporting to support Title IX compliance and a unique patent-pending user interface that is fast, friendly, easy to navigate and fun to use!

iAPPROVE supports personal choice and consent and can aid with compliance to Title IX, as well as compliance with California SB967 for colleges/universities, SB695 for high schools, NY SB5965, Articles 43, 8, 0, 120 & 125 of the Uniform Code of Military Justice and is positioned to support with potential future legislation such as US Senate Bill 590.

iAPPROVE addresses the tough questions:

- How can relationship status and awareness be proven?
- How can consent be given, verified and documented?
- How can events, times and locations be established?
- How can the parties be identified and verified?
- How can impairment due to intoxication/coercion be assessed?
- How can continuous progressive affirmation be proven?
- How long is consent and affirmation valid?
- Did all parties clearly define, communicate and understand status, expectations and consent?
- Were communications clear, accurate and acknowledged?
- Were calls to STOP and calls for HELP documented?
- How can personal safety be improved?

Defining, communicating and managing personal relationships can be challenging and emotional. A miscommunication or misunderstanding can result in legal actions, criminal procedures, negative press and substantial financial exposure.

iAPPROVE helps add clarity to the tough job of Title IX Administrators

iAPPROVE empowers individuals to define and establish levels, boundaries, status, rules, consent, permissions, activities, intentions and interactions with another person using predefined and described terms, standardized text messages, and unique definitions all within the security and privacy of the iAPPROVE application.

iAPPROVE users have the ability to say YES and NO, establish boundaries and permissions that are clearly defined and immediately communicated to partners... at their fingertips on their mobile phone!

iAPPROVE's unique design leaves no doubt as to relationship status, level of interest, level of commitment, level of physical intimacy and level and type of consent for relationship status, dating and sexual activity.

iAPPROVE provides users with a relationship management tool that provides clear, concise and documented communications.

iAPPROVE supports personal safety with PANIC features, automated dial-outs to law enforcement and sexual assault resources.

iAPPROVE may help reduce institutional exposure to vicarious liability associated with sexual assault or harassment, while improving an organization's ability to comply with Title IX and other regulations, processes, law enforcement and judicial procedures.

TITLE IX

Supporting Title IX Professionals

iAPPROVE supports Title IX Compliance Officers, HR Executives, Personnel Managers and Investigators in meeting and satisfying regulatory mandates, navigating today's litigious environment and aiding investigations including criminal and civil actions.

iAPPROVE supports safe campus initiatives and supplements sexual harassment training and assault prevention programs.

iAPPROVE supports the unique needs of the institution by helping to address the issues of vicarious liability, timely responsiveness and verifiable data.
